24 Hour STAC Report

- Report attached

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Level 2

Cal OES State Operations Center

- The State Operations Center (SOC) is prepared to activate at Level 3 in support of the Santa Barbara Winter Storm.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

Single Rail Car Derailment, SPILL: 18-1376, Shasta Lake, Shasta County

On 03/02/18 at 0643 hours the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that a single rail car (Non Hazardous Plaque) had derailed upright for unknown cause.

- There was no hazardous release and no injuries to crew.
- Crews responded to the scene to right the rail car.
- CSWC personnel performed notifications per SOP.

Cal OES Inland Region Storm Activity

An upcoming storm system will bring significant precipitation through Saturday for areas in the Cal OES Inland Region.

- There are no mutual aid requests and no search and rescue (SAR) mission tasking requests at this time.

Activations

- Cal OES Inland Region Emergency Operations Center (Inland REOC) will be activated to Level 3 (Lowest) – Virtual, Duty Officer monitoring
- El Dorado County EOC is activated at Level 1 (Highest, Operational Period – 03/01/18 and 03/02/18, 0700 – 1700 hours

Deployments

- 1 Cal OES Inland Region Senior Emergency Services Coordinator (ESC) to El Dorado County EOC
- 1 Cal OES Inland Region ESC to Calaveras County EOC
- 1 Cal OES Inland Region ESC to Santa Barbara County EOC

Cal OES SOUTHERN REGION

- See next slide for information

SITUATION SUMMARY

Significant Precipitation, Potential Debris Flows, Santa Barbara County

An upcoming storm system will bring significant precipitation through Saturday for areas in Santa Barbara County.

- The heaviest precipitation is expected to occur on 03/02/18, 0200 – 0800 hours.
- This creates a strong probability for debris flows to occur at recent burn scar areas.

Activations

- Cal OES Southern Region Emergency Operations Center (Southern REOC) [is activated at Level 2.](#)
- Santa Barbara County Emergency Operations Center (EOC) is activated at [Level 3.](#)
- [Ventura County EOC is activated at a very low level to support voluntary evacuations.](#)
- [City of Carpinteria is activated at Level 3.](#)
- [City of Santa Barbara is activated at Level 3.](#)

Deployments

- 1 Cal OES Southern Region Acting Regional Administrator (RA) deployed to Santa Barbara County EOC
- 1 Cal OES Southern Region Senior Emergency Services Coordinator (ESC) deployed to Santa Barbara County EOC
- 2 Cal OES Southern Region ESCs are deployed to Santa Barbara County EOC
- [1 Cal OES Inland Region ESC to Santa Barbara County as Deputy Debris Task Force Leader](#)
- 2 Cal OES Fire and Rescue Branch Assistant Chiefs [to Santa Barbara County](#)
- 1 Cal OES Law Branch Assistant Chief to Incident Command Post in Santa Barbara County
- 1 Cal OES Law Branch Assistant Chief to Santa Barbara County EOC
- 1 Local Government Type II IMT

Resources Assigned

- Urban Search and Rescue Region Task Force 12 - Santa Barbara County
- Cal OES Swiftwater – Search and Rescue Team 12 - Long Beach, Los Angeles County

Mandatory Evacuations

- On 03/01/18 at 1200 hours, Santa Barbara County Sheriffs Office (SBSO) issued mandatory evacuation orders for residents in the Thomas, Sherpa, and Whittier burn areas along the Santa Barbara County south coast (Goleta, Santa Barbara, Montecito, Summerland, and Carpinteria);
- Approximately 20,000 people impacted
- [Per the Cal OES Southern REOC, as of 0658 hours on 03/02/18, Santa Barbara County is assessing utilities but plan on re-population by 1000 hours.](#)

Voluntary Evacuations

- [On 03/02/18 at 0700 hours, Ventura County Sheriff OES has lifted all evacuations.](#)

SITUATION SUMMARY

Significant Precipitation, Potential Debris Flows, Santa Barbara County (Continued)

Shelter

- American Red Cross Evacuation Center, Earl Warren Showgrounds, 3400 Calle Real, Santa Barbara, opened in anticipation of receiving any Access and Functional Needs (AFN) evacuees.
 - [As of 03/02/18 at 0614 hours, 34 people were at this shelter, per the Cal OES Southern REOC.](#)
- City of Santa Barbara and the City of Carpinteria have set up evacuation plans for those needing help with transportation to the shelter.
- Casa Dorinda, a life care community, was fully evacuated on 02/28/18, which included 300+ Assisted Living and Skilled Nursing residents.
- County Public Health has pre-identified those facilities and AFN patients within the proposed evacuation areas that may need assistance with transportation and have proper planning in place.
- [Gran Vida Senior Living and Medical Care, in Carpinteria, are sheltering in place. Santa Barbara County Public Health reports there is an evacuation plan in place if needed – four sites have been identified.](#)

Road Closure

- Ventura County
 - [Hwy 33 at Fairview Rd. in Ojai, Ventura County, is closed due to mud and debris flow.](#)
 - [La Luna Ave. to Ojai Dr.](#)
 - [Santa Ana Blvd.](#)
- Santa Barbara County
 - [Bella Vista Dr., unincorporated northeast of Summerland, is closed due to debris flow.](#)

Missions

- 2018-SREOC-45462: Two California Department of Water Resources (DWR) subject matter experts ([Enroute](#))
- 2018-LAW-45467: Santa Barbara Sheriff's Office request California National Guard (CNG) high water vehicles to Unified Command Post (UCP) ([On Scene](#))

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

An active winter-type storm will continue moving across the region in various stages through Saturday. Some showers will be quite heavy. Significantly colder air will move into the region and linger into Saturday, lowering snow levels quite a bit. Somewhat warmer, much drier weather arrives Sunday for a couple of days followed by more precipitation the middle of next week. Snow levels will drop to as low as around 1,500 ft in the north and 2,000-2,500 ft in the south, although some northern areas around 1,000 ft could see some snow showers but with little accumulation. Precipitation should be showery, so snow accumulations at the lowest elevations are not expected to be more than a few inches. Storm total snow amounts could be around 4-6 inches near 2,000 ft and 1-2 ft over the mountain passes with significantly more than that likely at the higher elevations.

SOUTHERN CALIFORNIA

A storm centered off the coast of the Pacific Northwest will bring showers to Central California through Saturday evening. Most foothill and mountain locations will receive between 1 and 4 inches of rainfall and most coastal and valley locations will receive between a half inch and an inch of rainfall. The snow level will be between 5,000 and 6,000 feet. South to west winds of 20 to 40 mph will surface across the wind prone mountain and desert areas this afternoon through Saturday evening. Temperatures will be 5 to 10 degrees below normal through Saturday, with upper 30s and 40s across the mountains and 50s to low 60s in the valleys. A weak ridge of high pressure will build into California from the Pacific Ocean bringing significant warming and drying Sunday and Monday. Maximum temperatures will warm to around 5 degrees above normal putting the valleys of Southern California into the mid 70s Monday through the middle of next week. Minimum humidity will drop mainly into the teens Monday through the middle of next week.
